## City To Charge For Special Rubbish Hauls

Collections Every 2  
Weeks To Cost 75  
Cents Per Month

A resolution directing establishment of charges for special services in the collection of rubbish was adopted at the city council meeting Monday night.

Rubbish is not to be confused with garbage, the latter is considered vegetable refuse which is collected twice weekly in the residential district.

Rubbish includes tin cans, ashes and other trash which the city also will continue to pick up every two months without charge.

For those persons who have no garbage rights yet still want city workers to clean their basements at more frequent intervals, a schedule of fees for extra service is to be instituted.

75 Cents a Month  
For removing rubbish from basements or upper stories, a fee of 75 cents a month will be charged entitling the householder to one collection every two weeks. For removing trash from the rear of premises or from curbside every two weeks, the fee will be 50 cents a month.

Collection at similar intervals from commercial buildings will be \$2 a month if the rubbish is in basements or \$1 a month if it is at curbside. All charges are payable yearly or quarterly in advance.

As explained by Mayor Albert P. Hattenburg, these fees, which are 50 per cent less than those charged in most cities, will provide a more equitable system for collections throughout the city. Every householder who does not wish rubbish to be placed in alleys or in some other readily accessible outdoor spot will still be entitled to free pickups every two months.

Added Service  
Those who desire more frequent pickups or the added service of going into basements can then obtain it by making written application at the office of superintendent of streets and arranging for payment of the required fees.

In the past, the extra service which has cost the city about \$2,000 a year, it was said.

The council last night authorized the mayor to appoint a special committee of three to five members to investigate building priorities and recommend waiver of certain sections of the city building code for the duration of the national emergency.

## Jury Decides Prisoner Is Feeble-Minded

Bradley Man, Who Took  
Liberties With 4-Year-  
Old Girl, Sent Away

A circuit court jury decided yesterday afternoon that Laverne Dale Kline, 20, of 195 North Schuyler avenue, Bradley, is feeble-minded.

The jury of eight women and four men, charged only with the duty of determining Kline's mentality and not his guilt or innocence of a crime, took the case under advisement at 2 o'clock and an hour later returned a verdict to Judge Luther B. Bratton.

Under the law, Kline will be committed to the state department of public welfare and sent to the state security hospital at Chester.

Confesses Crime  
He was indicted May 7 by the grand jury for taking indecent liberties with a 4-year-old Bradley girl on April 22. He confessed to the charge.

Testimony was given at yesterday's hearing by A. L. Hansacker, psychologist of the Kankakee state hospital, and by Dr. Carl Miller, alienist of the institution, who had examined the prisoner.

The testimony to the effect that Kline has a mental age of about nine years, is mentally deficient but without psychosis (mental disease). They gave the opinion it would be dangerous for him to be at large.

Defendant Testifies

Kline took the stand only to give his name, age and amount of schooling. He had gone as far as the fourth grade and spent four years in that grade. He said he knows the difference between right and wrong.

The jury was composed of Ross Denton and Nellie Peterson of St. Anne, James Vickery of Aroma Park, Edith Hertz of Grant Park, Vera Gall of Essex, Marie St. John, Victor Menard, Lucille Nelson, George Goyette, Lucia Coy, Iva Hultz and Florence Snodgrass of Kankakee.

## Final Mop-Up In War Bond Drive

A call for volunteers to "mop up" scattered sections of the city in the house-to-house canvass for war savings bonds was issued today by Mayor Albert P. Hattenburg.

Workers are to meet at 7:30 o'clock Wednesday evening in the chamber of commerce office to receive cards and instructions for sections not yet covered.

"It is important that every family not yet contacted be called on," Mayor Hattenburg explained, "since this area will not get credit for bond sales made to local residents unless their pledge cards are obtained here. Otherwise the credit may go to Wilmington, Elwood or some other place where they may be working."

This solicitation is purely a voluntary one. No person is "high pressured" but simply asked to buy more bonds if he is able, it was explained. Kankakee county's quota for the month of May is \$153,000 and has been met, according to George Cooley and B. F. Hertz, chairman and vice chairman of the bond sales.

By July, however, the quota is to be boosted to more than \$300,000 monthly, so greatly increased purchases will be needed.

Right away, men and women are needed to engage in civilian protection programs and community welfare projects of the corps. ## Leader Of Air Raid On Japan Honored Today

Brig. Gen. James H. Doolittle Is Awarded  
Congressional Medal

Washington, May 19—(P)—"Practically every bomb" which American fliers showered on Japan April 18 appeared to have hit its target, the raid's leader—Brigadier General James H. Doolittle—said today, and he numbered among these vital objectives as the navy yard south of Tokyo and an aircraft factory near Nogoya.

The identity of the leader was disclosed today in a White House ceremony at which President Roosevelt personally decorated the flier, already famous as "Jimmy" Doolittle of peacetime speed records, with the congressional medal of honor.

To 70 others in the historic force went the distinguished service cross. "One salvo made a direct hit on a new cruiser or battleship under construction" in the navy yard, Doolittle related in a statement, and "left it in flames."

The aircraft plant was strewn with incendiary bombs "along a quarter of a mile" of its length he added. Japanese planes gave the raiders little trouble, their leader reported, and not much difficulty was encountered in getting to the objectives in the sensational raid, which threw Japan into confusion and gave a great lift to the morale of the United Nations, aside from inflicting important damage.

Difficult to Observe  
Doolittle said that the squadron of American planes came in just over the house-tops, and dropped bombs from 1,500 feet. The low level flying, he said, made it difficult to observe the results of the bombs.

"It appeared to us," the flying general declared, "that practically every bomb reached the target for which it was intended. We would like to have tarried and watched the

The daily Messianic prayer of the Hebrew believer in the Zionist movement—"May our eyes see Thy return to Zion"—was the subject of a talk with a travelogue of Palestine as a background, before yesterday's Kiwanis meeting at McBroome's cafe.

Mrs. A. J. Levy of Gilman whose husband, the superintendent for this area of the state department of public welfare, was in the audience as a guest of the Kiwanians, gave the lecture as a former resident of the Holy Land for six years.

Zionism, she explained, is the movement looking toward the return of the Jewish people to Palestine on a national basis. In 1917, she said, the Balfour declaration of the British parliament, favoring the establishment of a Jewish national homeland in Palestine, was endorsed by the League of Nations and Palestine became a British mandate.

Signs of Improvement  
In recent years, Mrs. Levy said, the movement has been so hopeful that there has been in Palestine a renaissance of the Hebrew language and literature, and a great deal of reconstruction and improvement of the land and its cities.

The homeland of the ancient Israelites, according to Mrs. Levy, is about the size of Massachusetts or Maryland, with a population of about one and a quarter million.

## Catholic Girl Wins Jewish Essay Contest On Democracy

This is what the war means to Ellen Tyrrell, 675 South McKinley avenue, senior in St. Patrick high school.

"The students of America realize that they must work hard in order to make this land a place for peace and happiness."

"We know that this war must be won and that the United States must be kept a place for freedom of speech, freedom of the press, and most important of all—freedom of religion."

"We have observed from the experiences of other nations what befalls a country that lacks Christianity. ## Recapture Large Locality On The Kharkov Front

Spectacular Phase Of  
Continuing Russian  
Advance

By ROGER D. GREENE  
Associated Press War Editor  
Marshal Semion Timoshenko's Red armies were reported hammering the Germans into retreat in the eight-day-old battle of Kharkov today, advancing between 30 and 40 miles on a 60-mile front, crushing tank-led counter-attacks and wiping out Nazi parachute troops.

Front-line dispatches said Russian cavalrymen, charging wildly across a pontoon bridge under an umbrella of warplanes, had captured "a large inhabited locality" in a further advance on the big Ukraine steel city.

Soviet tanks followed the horsemen, while Red warplanes shot down 17 German aircraft which vainly attempted to break up the assault.

The unidentified locality may have been Belgorod, about 25 miles north of Kharkov, or Zmiev, 12 miles south of Kharkov. The capture of either point would create a serious flanking threat to the Germans.

London military quarters said the Russian offensive, which began with a 35-mile breakthrough through the German lines, was now sweeping forward at varying depths on a 120-mile line.

Fail to Stem Advance  
Soviet dispatches declared Russian shock troops were "breaking enemy resistance" and said the Germans were already showing signs of strain as wave after wave of reserves failed to stem the advance of Timoshenko's men.

More than 2,700 Germans were reported killed or wounded, in addition to 12,000 previously announced. A British military commentator said the big drive was having a considerable effect on German offensive plans, amid indications that Nazi assault troops resting in other areas were being diverted to Kharkov.

In Crimea Area  
In the Crimea, the German high command asserted that "destruction of the last remnants of the enemy on the Kerch peninsula is about to be completed," while a Reuters (British news agency) dispatch said Russian resistance had stiffened with the arrival of fresh Red army troops at Yenikale.

Yenikale, at the tip of the peninsula, lies 10 miles northeast of Kerch city. This would indicate that Russian sea-borne forces were being ferried across the narrow Kerch strait from the Caucasus to strengthen the Red armies.

## Second Front In Europe Urged By Britisher

Deputy Prime Minister Emphasizes Strength Of Allies Increasing

By EDWARD W. BEATTIE  
United Press Staff Correspondent  
London, May 19 (UP)—The importance of opening a second front with a "great attack on the enemy in the west" and an invasion that will "go through to the end" was emphasized today in the opening phase of a two-day war debate in the House of Commons.

Deputy Prime Minister Clement R. Attlee emphasized that Allied strength was increasing every month (more American troops have arrived in North Ireland) but he declined to make any prophecy in regard to when or how a second front might be opened.

Arthur Greenwood, Laborite, said the Allied blows in the west must be harder than the recent commando raids.

"When the people wish to know if the government is determined to deliver a great attack on the enemy in the west," Greenwood said.

"A second front is a deliberate attempt at invasion of territories held by the enemy. When we do gain a foothold on the continent next time, we must go through to stay and strengthen our hold on the territories now overrun by Hitler."

Must Aid Australia  
Attlee told Commons that the Japanese had suffered a severe check in the battle of the Coral sea and that Britain would run any risk to aid Australia, but he declined to be specific about a second front in Europe other than to say that "we shall change . . . to the offensive."

Britain is maintaining its program of supplies to Russia, he said. "That is not an easy thing to do," he commented, "as the sea route to Murransk (on the Russian Arctic coast) is most difficult in climatic conditions at this time of year."

As Attlee spoke, it was announced that the government candidate had won a by-election for the House of Commons seat for the Chichester division of Sussex county.

It was the second government victory after a series of defeats, and was taken to reflect increased confidence both in Churchill and the government as a whole, which had been subject to severe criticism.

Lieut. Comdr. Joynton-Hicks, Conservative, won the Chichester by-election by 10,000 votes to 10,000. Flight Lieut. Gerald Kidd and 706 for A. A. W. Tribe, both running as independents.

Calcutta was designated as the seat of India government in 1733 and was the capital until 1912 when Britain chose New Dehli as the new site.

Massachusetts had a state police force as early as 1865.

### Great Volcano, Mauna Loa Back To Normal Today

Hilo, Hawaii, May 19 (UP)—The great volcano, Mauna Loa, which had spouted flames and lava so violently for two weeks that United States army planes bombed it twice, harmlessly smoked and sputtered in normal inactivity today.

The eruption began at 5 p. m. on April 28. Explosions burst the sides of the 13,680-foot mountain and lava streams started coursing down, coming within eight miles of Hilo's suburbs. Until May 6, lava poured from the volcano, and at night a column of fire mounted hundreds of feet.

Because of the fire, the army would not allow the eruption to be re-evacuated until "last night" because it constituted "information of value to the enemy." The column of fire could be seen 100 miles away, and if the Japanese had known about it, they might have used it for a beacon to bomb Pearl Harbor and Honolulu on the adjacent island of Oahu.

From May 6, the eruption weakened, and on the night of May 10, Mauna Loa made its last gasps.
